# FRIDGE TEMPERATURE LOG

## MONTH OF:

**Storage procedure:** check the **fridge** temperature twice per day and record. If above **5°C**, check again in 30 minutes. If not getting colder, move potentially hazardous food to another fridge (or put into freezer if still cold) and advise Coordinator. Check Freezer temperature once daily. If above **-15°C**, check again in 30 minutes. If still above **-15°C**, use corrective action.
